

The NEW LEDSCO XL44 Pouch/Mounting Laminator

Designed and built for today's on-demand, large format finishing requirements

Through industry input and marketplace research we learned how to fill the industry's need for a Large Format Laminator. Then, we added Ledco's 27 years of experience in the Lamination Industry to design a product that is:

- **Affordable**—Priced to fit any budget
- **Simple to operate**—With the flexibility to accommodate substrate thicknesses up to 1-1/2 inches by simply turning the Gap Adjustment knob
- **Easy to understand**—With clearly labeled step-by-step instructions that are color-coded with our consumables
- **Saves time and money**—No need for complicated tear-down and set-up
- **Change from finish to finish without any re-threading**— Change from matte to satin to gloss or to texture finishes without having to re-thread the laminator

A Profitable Investment for Your Business

Increases Customer Base

Whether enhancing your current service offerings or looking for a way to maximize production, the XL44 brings you a world of customers who used to go elsewhere for large format lamination. You can now be the one resource for all of your customer's graphic services and products.

Reduces Waste

Our new XL44 uses pre-cut boards and mounting materials—no need for complicated preparation, set-up, or "feeding waste." Pre-cut materials allow you to easily calculate the profitability of any job.

Simple to Operate

Both new employees and veteran operators can enjoy the simplicity of the XL44. Our newest laminator requires minimal skill to attain a

flawless finish. You can even alternate lamination finishes without the need for tear-down and set-up.

Flexible and Versatile

Mount, mount and laminate, or just laminate with the XL44. It can also serve as a great back-up unit for your roll laminators.

Well-Built, Well-Serviced

Skilled sales and support personnel ensure prompt response to any customer need. In test sites throughout the United States, this versatile piece of equipment received 4's and 5's on a scale of 1-5 for quality, performance, ease-of-use, and reliability. Ledco proudly offers a 2-year parts and labor warranty on the XL44.

The NEW LEDCO XL44 Pouch/Mounting Laminator

FEATURES

- **PRESET LAMINATION AND PRESSURE SPEED**—to make the laminator easier to use and eliminate potential problems
- **ADJUSTABLE POSITION LAMINATING ROLLERS**—to provide a range of roller openings (from fully closed to 1-1/2", with ten increments in between), to allow lamination of almost any practical substrate up to 1-1/2" in thickness
- **ENCLOSED LAMINATION ROLLERS**—to conserve energy, protect the rollers from accidental damage, and to function as a general safeguard
- **ADJUSTABLE HEAT CONTROLLER**—to allow lamination with a wide variety of substrates, laminates, and applications (temperatures range from 200 to 400 degrees F)
- **COLOR CODED CONSUMABLES**—to allow even the most novice operator to quickly choose their materials and reduce costly errors
- **PRE-CUT MATERIALS**—to simplify set-up time and control costs with less waste when feeding materials
- **MADE IN THE U.S.A.**—for reliable quality, better service, and faster parts availability
