

GATEWAY PRINTING INSTALLS MGI METEOR DP60 PRO DIGITAL PRESS TO ADDRESS GROWING DEMAND FOR SHORT RUN COLOR PRINTING

MELBOURNE, Fla. (May 24, 2011) – MGI Digital Graphic Technology, the manufacturer of digital printing and finishing solutions, announced that Gateway Printing has installed a Meteor DP60 Pro® multi-substrate digital press.

Gateway Printing, a full service commercial printing company, was first established over 100 years ago as part of the local newspaper, making it one of the oldest printers in Georgia. The company was purchased in 1976 by Byrl Pointer, the late father of the current owners, Nolan and Tim Pointer. Gateway Printing has been in the current Bremen, GA facility since 1984 and employs 21 people. President Nolan Pointer attributes the company's success to its strong customer service philosophy and high quality work.

When the decision was made to acquire a digital press, Nolan Pointer and Vice President Tim Pointer started a thorough investigation of the digital presses on the market. The MGI Meteor DP60 Pro was chosen for its high quality printing, range of sheet sizes and multiple substrate capabilities.

“Our customers expect high quality work, prompt service and competitive pricing”, said Nolan Pointer. “The MGI Meteor DP60 Pro allows us to easily meet those needs, and we’re excited about the additional capabilities we can now offer our customers.”

Gateway Printing purchased the Meteor DP60 Pro from Paper Handling Solutions, Inc. (PHS), based in Marietta, GA and an MGI dealer.

The flagship in MGI's digital line and with hundreds of installations worldwide, the Meteor DP60 Pro received consecutive Must See 'em recognition at GRAPH EXPO 2008 and PRINT 09. Key features include true multi-substrate versatility (widest range of paper, plastics & envelopes), sheet sizes up to 13 x 40" in production as a standard feature (up to 13 x 47" via manual bypass), laser-safe prints, offset comparable color output (Fogra® certified), plus no click charge and an economical total cost of operation.

About Paper Handling Solutions

Established in 1992, Paper Handling Solutions, Inc. serves the graphics industry in the southeast with leading technologies for print, mail and finishing. For more information please visit: www.paperhandlingsolutions.com

About MGI Digital Graphic Technology

Founded in 1982, MGI Digital Graphic Technology designs, manufactures and markets a full and innovative range of award-winning multi-substrate (paper and plastic) 4-color digital presses, as well as a complete line of versatile finishing solutions.

A key player in the global market, MGI has a portfolio comprised of several thousand customers in a wide range of sectors, including graphic industry professionals, Fortune 1000 companies, government agencies, plastic card manufacturers, silk screeners and photo labs.

MGI is a leader in the professional graphic equipment market and is registered on the Euronext Paris Alternext stock exchange (ALMDG). They received the prestigious OSEO "Innovative Company" & "OSEO Excellence" labels respectively in 2009 & 2011 in recognition of their expertise and innovation in the graphics & finishing industry. In addition, MGI has won nine international product awards from 2008-2010 related to technological innovation, including the 2010 Siemens Innovation Grand Prix award for the JETcard.

MGI USA, based in Melbourne, Florida, is MGI's fully owned subsidiary that services the North and South American, Caribbean and Asia Pacific markets.
