## ULTRACOATER MICRO

The UltraCoater Micro is a low maintenance ultra violet cured coating system that produces a high quality finish to the printed sheet.

The UltraCoater Micro's foot print is less than 3'x3' (90 cm square) and throughput is 1350 sheets per hour. This machine runs on 220V/60 hz (20 amp circuit) and can be moved easily through any standard door opening.

By producing richer and more vibrant colors on digitally or offset printed pieces the UltraCoater Micro offers the on-demand print market the opportunity to have more effective and expressive printed products at a very low cost per page.

The UltraCoater Micro is easy to operate and allows for variable coating thickness control and variable speed control. With two different UV solutions ready to run at all times the operator can switch between gloss and matte finishes in minutes.

**1 YEAR LIMITED WARRANTY**

# ULTRACOATER MICRO

ISERIES UV COATING SYSTEMS

The new Ultra Systems Micro is designed for low volume users who want quality UV coating in a small foot print machine. The Micro coats sheets printed on digital print devices\* as well as offset presses.

\*For some Konica Minolta, Canon, and H.P. Indigo machines we recommend sending samples to ensure compatibility.

## Features:

- Air-cooled direct focused UV lamp
- Two-up feed design increases production to the speed of an auto feeder
- Forward-Reverse controls for easy clean up
- Vacuum hold down/E Stop
- Variable speed control switch
- 2 electric, non-gravity feed pumps

## 20" Model

**Pumps:** 2 for solution or use 1 for cleaning

**Paper Size:** 8.5"x11" two up

**Weight:** 230lb machine, 250lb packing

**Dimensions:** 43" x 34" x 44"

**Max. Coating Length:** Unlimited

**Max. Coating Width:** 20.8

Machine comes with a 1 year limited warranty!
